

With XM Radio, I have enjoyed radio like I used to years ago. No longer do I have to tolerate obnoxious, off color remarks by radio personalities to listen to music, news, sports, weather, etc., but I enjoy the variety and quality for which I am willing to pay a monthly fee. I urge you to reject NAB's petition 04-160. Maybe if the NAB offered more of the variety and quality that XM does they wouldn't be so concerned with what XM offers.
